

Touchless Menu™

The digital solution for contactless menu display with instant, one-to-one engagement with restaurant customers.

Easily Broadcast Menu

Instantly display your menu to all onsite guests. Reduce printing costs, and increase individual safety.

Update On the Fly

Update menu items in real-time with ease using our drag-and-drop editor. No more running to the print shop for updates.

Build Marketing Database

Touchless Menus can be upgraded to collect powerful remarketing data, send surveys, promotional materials, and more.

TOUCHLESS MENU IS THE SMART, SAFE CHOICE FOR RESTAURANTS.

▶ Eliminate Unsafe Contact

Reusable menus can enable the spread of COVID-19. Promote social distancing and reduce use of multi-touch items.

▶ Provide Instant Menu Access

Immediately share your menu with all guests through their WiFi-enabled device. Include ordering and safety instructions, too.

▶ Save on Printing Costs

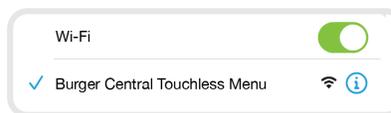

Control your costs as you reopen with eco-friendly digital menus. No more weekly trips to the copy shop!

▶ Increase Customer Satisfaction

The Touchless Menu is user-friendly for the whole family. Eliminate the need for complex web addresses, instructions, or hard-to-read signage.

▶ Save Staff Time

Running a skeleton crew? We get it. Save staff from explaining ordering procedures and broadcast the most important information to customer devices.

Done!

Restaurants are turning to Touchless Menus to reopen safely, reducing printing costs, and help their guests feel more comfortable.

“

What a great idea! The Touchless Menu has already saved me a fortune on printing costs, and my guests can easily access and browse the menu.

Gayle Francis
Monroe Street Diner, Toledo, OH

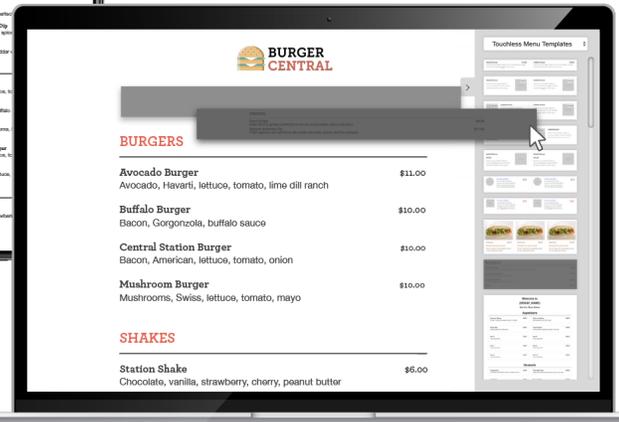

“

Many of my guests feel more comfortable using their personal devices rather than touching a physical menu. This tool encourages a comfortable experience.

Mark Ferguson
Ferg's Sports Bar, St. Petersburg, FL
